# FIND THE KEY TO YOUR TRUE POTENTIAL

## AT DRPF WORLDWIDE

A Global Community of Healing & Wellness Practitioners, Consultants and Coaches, we are a group of individuals from various cultural, economical, and spiritual backgrounds who are dedicated to recreate the age of truth, where people seek the universal knowledge that lies deep within their heart.

Our mission is to empower individuals worldwide to deprogram their limitations and unlock their hidden potential through our tools, tones, techniques and the core principles of DRPF Worldwide are:

## AWAKEN THE TEACHER WITHIN

Each one of us is our own teacher and guide through life.

While others can show us possibilities, we must navigate the ups and downs of life to find our own destiny and purpose.

*At DRPF we strive to help individuals reconnect with the inner teacher and experience the power of their own true potential.*

## YOU ARE YOUR OWN HEALER

Healing happens naturally. Each of us is born with the ability to connect and communicate with ourselves, but life experiences and subsequent programming can weaken this connection.

While external support through medicine, treatments, and therapies is sometimes necessary, we can further support the healing process in ways we might not even imagine.

*At DRPF, our objective is to help individuals reconnect with the healer within to lead a happy, healthy and fulfilling life.*

## EXPERIENCE IS THE ONLY TRUTH

Our experiences are unique and comparing them to others is unnecessary. We are all unique and perceive truth in our own way. Our choices, decisions, thoughts and actions are all influenced by our understanding of truth and vice versa. Therefore, it is essential to open ourselves to truly experience life and understand our own potential.

*At DRPF, we value every individual experience and aim to create a holistic environment that inspires everyone to live their own truth.*

## HEART IS THE POWERHOUSE OF OUR POTENTIAL

The heart is our core powerhouse, the home of our soul, and the centre of our existence. It is the most important human organ, holding the key to our life. With immense capability to heal and elevate, the heart embodies our actual essence.

*At DRPF, we aim to create a world where everyone can experience their true potential through the heart.*

## FIND, FOLLOW & FULFIL YOUR DESTINY

Each one of us is born with a purpose - physical, mental, emotional and universal. It is a calling that adds meaning to our everyday life.

*At DRPF our goal is to empower individuals worldwide to discover and define the true purpose of life. Our methods and practices are designed to enable every individual to connect with their self, enrich their passion, and fulfil their destined path.*

# ACE TO MEF SCIENCES

Discover the natural system of communication that connects us with our soul. Embrace the essential principles of Manifestation, enabling us to fulfill every desire.

## ACE TO MEF

The ultimate goal is to strengthen our...

A - AWARENESS

C - CONSCIOUSNESS

E - ENERGY

TO

M - MANIFEST

E - ENRICH

F - FULFILL

## ACE OR AWARENESS, CONSCIOUSNESS AND ENERGY

### AWARENESS

**OUR HIGHEST SENSE, THE SENSE OF ALL KNOWING.**

It is present and within us. Awareness knows how to operate our whole body.

### SELF AWARENESS - DIVINE AWARENESS - ABSOLUTE AWARENESS

Most of us are in Self Awareness and sometimes don't even know that, but once we are conscious about strengthening our awareness it gets stronger and deeper.

### CONSCIOUSNESS

Consciousness is a slower form of awareness, which is aware only during the waking hours. Consciousness is about focus & attention. The ability to manifest happens when we are consciously awake and then we utilize our awareness to manifest. Once we manifest we want to sustain it, enrich it and finally we feel fulfilled.

Energy is our inherent potential. There are all kinds of potential, which we can create. By energy, we don't mean electricity or heat rather, we are talking about energy, the potential that created everything. This energy potential is available within each one of us and we need to learn how to use this potential. This is the potential which runs our body with the help of awareness and focus (consciousness). All of this happens automatically.

When you want to do something consciously then we need to ask for it. We need to utilize our A C E. Most people function at 3% potential, which means 97% of the potential isn't utilized and is available for us. And if we want to further enhance our awareness (self awareness, self realization etc) then we need to activate and tap into our energy.

*We have to use our ACE at every step be it*

**MANIFESTATION, ENRICHMENT OR FULFILLMENT.**

It is our ACE Intelligence that we need to use to MEF and we need continuously strengthen our ACE too.

## **MANIFESTATION**

We are believed to be a replica of the creator. The role of the creator is to create. Similarly, the role of every human is to create or manifest. There are so many things we have to manifest. When we are born its our growth, followed by our education, manifest our career, partner, family and so on. Initially, our manifestations are all for essential needs in order to be able to live. Once we have achieved that then we are able to manifest our unique life purpose. And that's what we came for. And sometimes both happen simultaneously. The key to living is manifesting and we all have the ability to manifest. We are born with the skills to manifest and that's our **ACE Intelligence**.

Our goals, desires and dreams keep bubbling up due to this reason. That is something we all are aware about. We need to consciously decide what is suitable to manifest at the given time and set our intentions towards it.

Our generic life purpose is to purify ourselves. The more we purify, the more our potential can be tapped into. Leading to self realization and self enlightenment.

## ENRICHMENT

Enrichment is a sustenance process. Once we manifest something, we must maintain it and grow it. For example when we start a business, then its on us to sustain it, evolve it & grow it. Or even a pregnancy; conception is the manifestation, but the 9 months to sustain and take it through the entire course of pregnancy is the enrichment part of our action until we reach the desired fulfilled result.

## FULFILLMENT

Fulfillment is the feeling of contentment, satisfaction and the feeling of joy. Even seeing our business grow year on year is the feeling of fulfillment and then it starts all over again, when we decide what else we can do to further enhance the business. MEF is a continuous process of life which each one of us is always going through. Fulfillment is what keeps us happy.
